

European Youth Parliament Germany,  
European Forum Essen, 8<sup>th</sup>-11<sup>th</sup> May 2010

## **CLIM**

Europe's role after the Copenhagen summit: What strategy should the EU adopt to contribute to the establishment of a global political framework that will effectively combat climate change?

## **EMPL I**

The extinction of the secondary sector: What strategies should the EU Member States develop in order to integrate unqualified workers into a globalised market?

## **REGI**

Rural depopulation and impoverishment of whole regions of the EU. Are there ways to stop this alarming process and its consequences for economic development?

## **CULT**

Working class children in Europe: What strategies should the EU adopt in order to ensure equal access to education for all its citizens?

## **EMPL II**

Europe's retiring labour force: How can the EU react to the ongoing demographic change and ensure the transfer of knowledge as well as other resources between generations?

## **ITRE**

What actions do the EU and its Member States need to take in order to reach its ambitious target to reduce its emissions by 80% by 2050?
